

# Leica Cyclone FIELD 360 View. Check. Add.

## View

As part of Leica Geosystems' 3D reality capture solutions, the high-performance Leica Cyclone FIELD 360 mobile-device app is the perfect field companion for the BLK360, BLK2GO, BLK2GO PULSE, RTC360 and ScanStation P-Series laser scanners. With its intuitive user interface, remote scanner control and on-site point cloud display, navigation is a breeze - even for novice users - with full imagery and point cloud data delivered directly to your tablet or smartphone using edge computing technology.

## Check

Direct data access and visualisation are the foundation for quality control in the field; with Cyclone FIELD 360, pre-aligned point cloud data enables users to quickly conduct on-site quality control checks, improves productivity, and makes for better-informed decisions in the field. Directly publish your captured data from Cyclone FIELD 360 to TruView Cloud or Reality Cloud Studio, powered by HxDR to quickly exchange project information between the office and the field prior to import and registration.

## Add

For improved registration in Leica Cyclone REGISTER 360 PLUS post-processing, and to add extra value and information to 3D data, Cyclone FIELD 360 enables on-site tagging of measurements, videos, images, text or voice files to the point cloud geometry simply by using your tablet or smartphone. Using the Quick Plan add-on, extract walls to build rooms, define windows and doors and create a floor plan model shared directly in the field or consumed by Cyclone office software.

# Leica Cyclone FIELD 360 Product Specifications

## GENERAL

iOS or Android app In-the-field app for remote scanner control, data management, quality control, data tagging and automatic pre-registration on-site

## SCANNER CONTROL

Remote scanner control with access to all control features

## DATA MANAGEMENT

Create, edit and delete scan jobs

## DATA COMMUNICATION & TRANSFER

Communication Bi-directional wireless communication between scanner and tablet

Transfer Automatic transfer of scan data from scanner to tablet; automatic synchronisation of all app created data from tablet to the scanner

Publishing to Reality Cloud Studio and TruView Cloud Direct publishing for communication between in-field team members and office team members to quickly exchange project information prior to import and registration

## QUALITY CONTROL

Point cloud navigation Navigate single and registered point clouds in 2D map view, 360° panoramic view or in full 3D view. See Live Scanner Position (for VIS enabled scanners)

Point cloud display Display point clouds in full HDR colour (RTC360 and BLK360), rainbow intensity or grey-scale mapping

Measurement Take and tag measurements within the point cloud

## DATA TAGGING

Add image, video, voice, text or any other file-based tags to point cloud and add 3D tags using the LiDAR sensor in compatible Apple devices.

## PRE-REGISTRATION

Auto alignment Visual Inertial System (VIS) technology based automated alignment for targetless cloud-to-cloud registration

Visual alignment Move, rotate, or pre-align scan setups to assist cloud-to-cloud registration

Optimise bundles Create redundant links and close loops.

## ADD-ONS

Quick Plan Extract walls and define doors and windows to create floor plan models in IFC or DXF format

## INTEROPERABILITY

Sensor hardware Leica ScanStation P-Series, RTC360, BLK360, BLK2GO, & BLK2GO PULSE

Built-in LiDAR sensor Collect LiDAR data with compatible Apple devices.

Cyclone software Leica Cyclone REGISTER 360 2023.1.0 (or higher) or Leica Cyclone version 2023.1.0 (or higher) to support data import. Requires active Cyclone REGISTER 360 PLUS family or Cyclone FIELD 360 licence for activation.

TruView Cloud publish Requires active TruView Cloud subscription

RCS publish Requires active Reality Cloud Studio account.

## SYSTEM REQUIREMENTS

Platform Android tablet or phone running on Android 10.0 or higher on 64-bit ARM architecture with 64-bit operating system and at least 4GB of RAM.  
Recommended devices: Samsung Galaxy Tab S8, Tab S9, Samsung Galaxy S22, S23 series.  
Apple iPad or Apple iPhone running on iOS16 or higher with 64-bit operating system and at least 4GB of RAM.  
Recommended devices: iPad Pro 11 (2021, 2022) and iPhone 13, 14, 15 series.  
For first generation BLK360 scanners, iOS devices are recommended.

Leica ScanStation survey-grade, 3D laser scanner and Leica Cyclone FIELD 360 mobile-device app.

Leica RTC360 3D laser scanner with the Leica BLK360 imaging laser scanner and Leica Cyclone FIELD 360 mobile-device app.

Leica BLK2GO handheld imaging laser scanner and Leica Cyclone FIELD 360 mobile-device app.

Download from Google Play Store and Apple App Store.
